Mr. Kyle Viator, CEO
Amerihealth Caritas Louisiana
10000 Perkins Rowe, 4th Floor
Baton Rouge, LA 70810

Dear Kyle:

RE: Notice of Action Regarding Quarterly Specialized Behavioral Health Network Reports

It has come to my attention that Amerihealth Caritas Louisiana (ACLA) has failed to submit accurate quarterly Specialized Behavioral Health (SBH) Network Reports as required by contract.

Section 18.10 of the contract requires the submission of these deliverables in the report format prescribed by LDH. Quarterly SBH Network Report submissions must include data accurately reported according to SBH designated levels of care, SBH provider types, provider identification numbers, LDH administrative regions, service location addresses inclusive of parishes, and populations served. Medicaid Behavioral Health, in collaboration with the Office of Behavioral Health, incorporated this topic into the bi-weekly "MCO Touch Base Calls," in which ACLA has attended, beginning July 29, 2016. LDH has provided additional aids and guidance relative to unacceptable network report submissions via a Specialized Behavioral Health Provider Types, Specialties and Taxonomies Grid (attached), which is included in the *MCO System Companion Guide*, as well as detailed feedback associated with ACLA's Q2 SBH Network Reports (attached).

ACLA failed to incorporate this feedback and guidance into their report submissions resulting in incorrect submissions of Q3 SBH Network Reports (attached). Per Section 20.3 of the contract, failure to submit accurate standing and ad hoc reports carries a monetary penalty of \$2,000 per calendar day each report is late or deemed incorrect. ACLA must submit accurate Q3 SBH Network Reports as set forth below to LDH in the format prescribed by LDH by **February 28, 2017**.

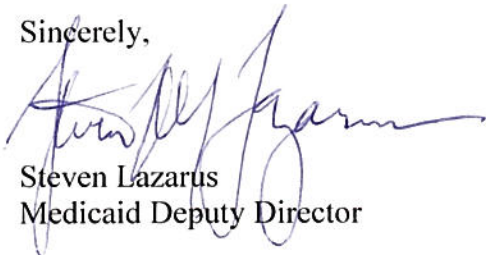

- Report 328 – Behavioral Health Provider Network Detail Report
- Report 336 – Behavioral Health Providers by Level of Care
- Report 338 – Behavioral Health Network Adequacy and GEO Access Review (Provider Type)
- Report 339 – Behavioral Health Prescriber Sufficiency Summary
- Report 348 – GeoAccess Mapping

If ACLA cannot demonstrate compliance by **February 28, 2017**, penalties will be assessed in accordance with the contract terms outlined in the Table of Monetary Penalties as set forth below.

Standing and <i>Ad Hoc</i> Reports	Two thousand dollars (\$2,000.00) per calendar day that a report is late or incorrect.
---	--

Please do not hesitate to contact me if you have any questions.

Sincerely,

Steven Lazarus
Medicaid Deputy Director

SL/rm

Subject: ACLA - LDH Provider Network reports review
Attachments: LDH Network Committee Review 2016 Q2 - ACLA.XLSX

Good morning,

Please find LDH's comments below and spreadsheet attached regarding Provider Network reports. Any comments, revisions and/or resubmissions are due by COB Friday, 10/14/2016.

1. Behavioral Health Provider Network Detail Report (328) – 2015 Q4, 2016 Q1, and 2016 Q2
Not accepted; however resubmit not required for Q2. Report for Q3 must address concerns noted for Q2 report. See attachment.
2. Behavioral Health Providers by Level of Care (336) – 2015 Q4, 2016 Q1, and 2016 Q2
Not accepted; however resubmit not required for Q2. Report for Q3 must address concerns noted for Q2 report. See attachment.
3. Behavioral Health Network Adequacy and Geo-Access Review Report (338) – 2015 Q4, 2016 Q1, and 2016 Q2
Not accepted; however resubmit not required for Q2. Report for Q3 must address concerns noted for Q2 report. See attachment.
4. Behavioral Health Prescriber Sufficiency Summary (339) – 2015 Q4, 2016 Q1, and 2016 Q2
Not accepted; however resubmit not required for Q2. Report for Q3 must address concerns noted for Q2 report. See attachment.
5. Behavioral Health Geo Access Density Summary (343) – 2015 Q4, 2016 Q1, and 2016 Q2
Not accepted; however resubmit not required for Q2. Report for Q3 must address concerns noted for Q2 report. See attachment.
6. GeoAccess Mapping (348) – 2015 Q4, 2016 Q1, and 2016 Q2
Conditional acceptance: Gap Analysis and network plan due by 10/14 to demonstrate how ACLA will enhance member access to the following LOCs, which appear to fall below contractual access standards via the data provided:
 - ASAM Level Services - it's not clear if ACLA has applied the access standards as depicted in the contract in this report or if the 30/60 mile standard was used across all LOCs. Please refer to contract for appropriate access standards and confirm this report depicts them accurately.
 - ASAM Level III.3 - map and report do not differentiate between adult and adolescent, however there are different access standards associated with each population. Please revise. ACLA should provide their gap analysis report for how they will enhance and develop their network for this level of care to meet contractual access standards.
 - ASAM Level III.5 - not finding data associated with this LOC. Please add. (adults/adolescents)
 - ASAM Level III.7 - provide gap analysis report for plan to enhance and develop network to meet access standards for this level of care.
 - ASAM Level III.7D - provide gap analysis report for plan to enhance and develop network to meet access standards for this level of care.
 - PRTF - map and report are not populated in a way that aligns with contractual access standards; please review and revise.
 - Prescriber – ensure APRNs listed in this report are appropriately licensed with prescriptive authority as not all APRNs have this privilege.

Thank you,
Ann

ACLA SBHS NETWORK MONITORING REPORT - Q3								
#	ISSUE	TYPE			REPORT	RESUBMISSION DUE	REVIEW SENT	NOTES
1	Non-SBHS Provider Types Utilized	PROVIDER TYPE			328	2/28/2017	1/18/2017	Providers must be associated with the approved SBHS provider types listed in the SBHS Provider Types and Specialties Grid (shown in template resources tab). Providers linked to the following provider types must be corrected (via report and registry if applicable): Community Mental Health Service Outpatient Mental Health Clinic Outpatient Rehab Facility SA Ctr XOvr Clinic or Othr Grp SA Ctr XOvr Sub&Alch Abuse Ctr In addition, please confirm the provider type shown as Marriage Family Therapist equates to LMFT (all licensed and able to practice independently)
2	Provider Type Associations	LOC			328	2/28/2017	1/18/2017	The report indicates there are inappropriate provider types rendering certain SBHS levels of care. As an example, Behavioral Health Rehab Agencies should not be providing ASAM Level 3 and above, which is indicative of residential substance use treatment requiring specific licensing from LA's Health Standards Section (HSS), Therapeutic Group Home levels of care (again, requires specific OBH approved clinical models of care and TGH licensing through HSS), TGH - Addiction. Another example: There should be no Legacy Mental Health Rehab Agencies rendering the following LOCs: inpatient psychiatric or addiction/SU treatment, ASAM Level 3 and above (residential SU treatment), TGH treatment. Please review <u>all</u> LOCs against associated provider types and ensure providers are only rendering levels of care they are qualified and licensed to provide, and are registered and typed/coded accurately in provider registries and report(s).
3	PRTF	PROVIDER TYPE			328	2/28/2017	1/18/2017	Please review the five providers associated with PRTF provider types. Not all of these providers are hospital-based PRTFs. Those that are not should be appropriately typed (refer to SBHS Provider Types & Specialties Grid), and the report should reflect accurately.
4	Crisis Stabilization	LOC			328	2/28/2017	1/18/2017	Crisis Stabilization may only be provided by Crisis Receiving Centers/Center Based Respite/Respite Care Facilities specifically licensed by HSS to provide this LOC. Please review typing of this provider and correct via registry (if applicable) and report.
5	Evidenced Based Practices (EBPs)	LOC			328	2/28/2017	1/18/2017	Please either confirm that all providers reported as rendering ACT, MST, FFT and Homebuilders have proof of registration with the national oversight bodies associated with these LOCs (as evidenced by verification documentation in credentialing files), completed SAMHSA Toolkit in cases of ACT, or please revise reporting and systems to ensure providers not appropriately credentialed for these EBPs are not providing them and are not being reimbursed the higher rates associated with these LOCs.
6	Absent SBHS Provider Types	PROVIDER TYPE			328	2/28/2017	1/18/2017	The following SBHS provider types are not reflected in this report. Are there no providers of these types contracted with ACLA? Please either explain or correct report (and registry if applicable) Respite Care Agency, Crisis Receiving Center, Center Based Respite Substance Use Residential Facilities PRTF - Addiction
7	Residential ASAM levels	LOC			328	2/28/2017	1/18/2017	ASAM Level 3 and above may only be provided by licensed substance use residential facilities or PRTF - Addiction (ASAM Level 3.7 and 3.7-WM for adolescents) provider types. Please review and correct either the provider types associated with providers rendering these LOCs or the LOCs associated with these providers/types.

#	ISSUE	TYPE	REPORT	RESUBMISSION DUE	REVIEW SENT	NOTES
8	Non-SBHS LOCs Utilized	LOC	328	2/28/2017	1/18/2017	The following levels of care are not approved and recognized SBHS. Please review and correct these LOCs to reflect SBHS nomenclature. If these LOCs are value added or ACLA recognized LOCs provided outside of core services, please request approval to add a separate column to report these services. Mental Health Rehab Mental Health Rehabilitation Agency
9	Out-of-State	SERVICE ADDRESS	328	2/28/2017	1/18/2017	There are a number of providers reported as having service addresses outside of Louisiana, specifically in TX, TN, GA and PA. These are not residential placement facilities, per the report. Please provide a brief explanation for contracting with these out-of-state providers and confirm whether or not associated service addresses are in-state or out-of-state. As an example, how are Louisiana Medicaid members accessing outpatient psych services in Pennsylvania from the listed LCSW and why is that necessary?
###	LMHPs	LOC	328	2/28/2017	1/18/2017	It is likely there are LMHP independent practitioners, i.e. LCSWs, LPCs, LACs (possibly even psychiatrists and psychologists), who are rendering ASAM Level 1 - Outpatient Addiction Services (as opposed to psych outpatient). Please review, and if appropriate, tie the providers to this LOC in the report. This should be confirmed via credentialing files and claims data.
###	Progress Noted	OTHER	328	2/28/2017	1/18/2017	Although revisions are needed, it is clear from the Q3 submission of the 328 report that ACLA made significant improvements in how data is reported. The efforts of ACLA staff responsible for the report improvements and attention to detail are truly appreciated.
###	Not Accepted	DISPOSITION	328	2/28/2017	1/18/2017	This report is not accepted and requires review and correction.
###	OBH Recommendation	REMEDATION	328	2/28/2017	1/18/2017	1) Resubmission of report due February 28, 2017; 2) Notice to Cure Letter; 3) Imposition of monetary penalties with failure to submit an accurate resubmission by deadline: \$2,000 per calendar day that the resubmitted report is late or incorrect. (Contract Reference: 20.3.2 - Table of Monetary Penalties)
###	Inconsistent Data across Reports	COUNTS	336	2/28/2017	1/18/2017	Data is inconsistent across reports. As an example, Report 336 indicates there are 23 providers of ASAM Level 3.1 statewide, however when compared against Report 328 - Provider Detail, only three (3) unique providers of this LOC associated with seven (7) service locations are reported. Please review all provider counts by LOC and Region in Report 336 and correct inaccurately reported data or align Report 328 with this data to reflect accurately.
###	[Add] lines populated	TOTALS	336	2/28/2017	1/18/2017	The two [Add] lines (lines 38 and 39 of the template) available to MCOs for value added or other levels of care they'd like to report are populated with data across each region in this report. What are the associated levels of care for these counts? Additionally, totals for each regional column and grand totals are not completed. Please review and correct as appropriate.
###	Not Accepted	DISPOSITION	336	2/28/2017	1/18/2017	This report is not accepted and requires review and correction.
###	OBH Recommendation	REMEDATION	336	2/28/2017	1/18/2017	1) Resubmission of report due February 28, 2017; 2) Notice to Cure Letter; 3) Imposition of monetary penalties with failure to submit an accurate resubmission by deadline: \$2,000 per calendar day that the resubmitted report is late or incorrect. (Contract Reference: 20.3.2 - Table of Monetary Penalties)

#	ISSUE	TYPE	REPORT	RESUBMISSION DUE	REVIEW SENT	NOTES
###	Duplication Leading to Inaccurate Counts	COUNTS	338	2/28/2017	1/18/2017	<p>Please review data for duplicates and ensure accurate counts for each provider type. As an example, ACLA reports an unduplicated count of 17 APRNS in Region1, however when compared to report 328 Provider Detail, there are 12 unique APRNs in this region. Please review all provider types and all regions to ensure unduplicated counts. As noted at bottom of template, only providers (individuals or organizations) with an executed contract should appear in these counts. In addition, although a provider may be counted in more than one region if providing service at contracted service location in more than one region, a provider should only be counted once per region.</p> <p>The same is true of agencies and facilities. EX: ACLA reports 182 Behavioral Health Rehab Provider Agencies in Region 1. Although there are 182 line entries for this provider type in Region 1, there are only 41 distinct, unduplicated providers of this type in Region 1. Please review all provider types by region and count to ensure accurate reporting.</p>
###	Significant Fluctuations in Counts Compared Against Q2 Report	COUNTS	338	2/28/2017	1/18/2017	<p>Counts for some provider types are significantly different than that reported in Q2's 338 report. This may be due to provider registry clean-up efforts and accurate classification of providers by type and LOC as observed in Report 328 on provider detail. However, please review each count for each provider type and region to ensure the reported data is accurate. As an example, in Q2 ACLA reported 21 medical psychologists statewide, and in Q3 ACLA reports 634. This seems unlikely.</p> <p>As another example, ACLA reported 321 total unduplicated psychiatrists statewide, and in Q3 ACLA reports 0 psychiatrists.</p> <p>The line item above TGH is void of a provider type, yet there is data populated under the regions on this line. Please review all counts by provider type and region and ensure accurate reporting of numbers in the resubmitted report. Please compare these counts against report 328 (provider detail), provider registries, etc. to ensure all sources are reflective of the same information.</p>
###	Inconsistent Data across Reports	OTHER	338	2/28/2017	1/18/2017	<p>Due to the inconsistencies noted above (comparison against Q2 338 report and Q3 328-Provider Detail Report), LDH is unable to gage access and sufficiency. Please review, revise where appropriate, and resubmit ensuring all data is accurate and totals are correctly calculated.</p>
###	Not Accepted	DISPOSITION	338	2/28/2017	1/18/2017	<p>This report is not accepted and requires review and correction.</p>
###	OBH Recommendation	REMEDATION	338	2/28/2017	1/18/2017	<p>1) Resubmission of report due February 28, 2017; 2) Notice to Cure Letter; 3) Imposition of monetary penalties with failure to submit an accurate resubmission by deadline: \$2,000 per calendar day that the resubmitted report is late or incorrect. (Contract Reference: 20.3.2 - Table of Monetary Penalties)</p>

#	ISSUE	TYPE	REPORT	RESUBMISSION DUE	REVIEW SENT	NOTES
###	Duplicates	COUNTS	339	2/28/2017	1/18/2017	<p>APRNs: Review of this report indicates 41 distinct APRNs w/ prescriptive authority. However, when compared against report 328 Provider Detail, filtering for APRN as prescribers yields 41 line entries, but only 12 distinct APRNs RX due to duplication. EX: Monica Pedersen appears 16 times in the 328 report. Please review data and correct reports impacted by errors.</p> <p>Psychiatrists: Review of report 339 reflects 761 distinct psychiatrists as prescribers. However, when compared against report 328 Provider Detail, filtering for psychiatrists as prescribers yields 715 line entries, but only 349 distinct psychiatrists due to duplication. EX: Eva Matthews appears 23 times in the 328 report. Please review data and correct reports impacted by errors.</p> <p>Medical Psychologists: The same is seen reviewing med. psychs. 59 are reported, however review of the 59 listed in report 328 reviews numerous duplicates. Please review data and correct impacted reports.</p>
###	Data Errors Across Reports	OTHER	339	2/28/2017	1/18/2017	<p>Due to duplication of data and incorrect calculation as noted above, LDH is unable to determine whether access and sufficiency of these ACLA network prescriber types are adequate. Please review, revise where appropriate, and resubmit ensuring all data is accurate and totals/percentages are correctly calculated.</p>
###	Not Accepted	DISPOSITION	339	2/28/2017	1/18/2017	<p>This report is not accepted and requires review and correction.</p>
###	OBH Recommendation	REMEDATION	339	2/28/2017	1/18/2017	<p>1) Resubmission of report due February 28, 2017; 2) Notice to Cure Letter; 3) Imposition of monetary penalties with failure to submit an accurate resubmission by deadline: \$2,000 per calendar day that the resubmitted report is late or incorrect. (Contract Reference: 20.3.2 - Table of Monetary Penalties)</p>
###	BH Specialists	ACCESS	348	2/28/2017	1/18/2017	<p>Mapping and reported data indicate access is met for this provider group for both urban and rural access standards per contract requirements. However, due to inconsistencies of data reported in other Q3 network reports, LDH is not confident the data/numbers reported in 348 are accurately calculated. Please provide source for data reported here, how this data is different than data reported in 328, 338, 339, etc. (if it is different), and methodology utilized to complete the report.</p>
###	Psychiatrists	ACCESS	348	2/28/2017	1/18/2017	<p>Mapping and reported data indicate access is met for this provider group for both urban and rural access standards per contract requirements. However, due to inconsistencies of data reported in other Q3 network reports, LDH is not confident the data/numbers reported in 348 are accurately calculated. For instance, the geo-access mapping and data indicates a total of 761 psychiatrists, which is the same data reported in Report 339. Comparison of the report 339 data against the 328 Provider Detail data revealed duplication in numbers reported. Please provide source for information reported here, how this data is different than data reported in 328, 338, 339, etc. (if it is different), and methodology utilized to complete the report.</p>

#	ISSUE	TYPE			REPORT	RESUBMISSION DUE	REVIEW SENT	NOTES
###	Residential ASAM Levels	ACCESS			348	2/28/2017	1/18/2017	Please review to ensure accuracy of numbers/data reported in light of inconsistencies found with other provider types. Please additionally ensure ASAM level data is reported for both adolescent members and adult members. Data reported indicates access has not been met for any of the residential ASAM levels, urban or rural. Assuming the data will yield similar results once reviewed as requested, please submit a gap analysis report with network development plan for any provider types or levels of care where access shortages or network gaps are evident.
###	PRTF	ACCESS			348	2/28/2017	1/18/2017	Please review to ensure accuracy of numbers/data reported in light of inconsistencies found with other provider types. Please additionally ensure ASAM level data is reported for both adolescent members and adult members. Data reported indicates access has not been met for any of the residential ASAM levels, urban or rural.
